# ⋖ COURSES OF STUDY. ⋗

## Normal Department.

The law provides for two distinct courses of Instruction in the State Normal Schools —the ELEMENTARY and the SCIENTIFIC.

## ELEMENTARY COURSE.

### PREPARATORY YEAR.

Classes will be maintained every term in Methods of Teaching. ORTHOGRAPHY, READING, PENMANSHIP, Arithmetic, POLITICAL GEOGRAPHY, English Grammar and Composition, HISTORY OF THE UNITED STATES, PHYSIOLOGY, Algebra, Drawing and Vocal Music.

The above branches printed in SMALL CAPITALS must be thoroughly finished, and a fair knowledge of the remainder must be shown, before students can be admitted into Junior Class.

### JUNIOR YEAR,

FALL TERM.
- School Management.
- English Grammar and Composition (completed).
- Mental Arithmetic.
- Algebra, (completed).
- Latin Lessons and Grammar, (begun).
- Physical and Mathematical Geography.

WINTER TERM.
- Methods of Instruction.
- Arithmetic.
- Drawing and Vocal Music.
- Latin Lessons and Grammar.
- Book Keeping.

SPRING TERM.
- Methods of Instruction.
- Civil Government.
- Latin.
- Botany, (begun).

☞ An examination by the State Board of Examiners in all the branches of the Preparatory and Junior years, except in Methods and Management, must be passed before entering the Senior Class

### SENIOR YEAR.

FALL TERM.
- Psychology, embracing the Intellect, Sensibilities, and Will.
- Latin, Cæsar.
- Botany completed. Begin Natural Philosophy.
- Geometry.
- Rhetoric, with Essays.
- Teaching in Model School and semi-weekly meetings with the Principal of the Model School.

WINTER TERM.
- Psychology.
- A Course of Professional Reading.
- English Literature, with Essays.
- Natural Philosophy.
- Geometry—Model School.

SPRING TERM.
- History of Education.
- General History.
- Professional Reading, with notes, criticisms and abstracts to be submitted to Board of Examiners.
- Arithmetic, completed.
- Reviews.
- A Thesis on a professional subject.

The final examinations in the Elementary Course are conducted by the State Board of Examiners at their annual examination. This Board consists of the State Superintendent of Public Instruction, or his Deputy, who is President of the Board; the Principal of another Normal School; two County Superintendents from the Thirteenth District, and the Principal of this Normal School. Each student must receive four votes out of the five in order to pass the examination and to graduate.

---

Preliminary examinations are held by the Faculty during the year in the branches requisite for passing the Junior and final examinations. Students must pass creditably in these, and be recommended by the Faculty, before they become eligible to appear before the State Board.

---

The final examination occurs in the month of June. It is almost wholly in writing, and lasts about three days.

---

Each Student is required by law to teach 21 weeks in the Model School for a period of 45 minutes each legal school day, before he can graduate in the Normal Course.

SUBSTITUTIONS.—Greek, French and German may be substituted for Spherical Trigonometry, Analytical, Geometry, Calculus, the mathematical part of Natural Philosophy and Astronomy.

NOTE.—The Scientific Course also includes the Elementary Course.

Classes are also formed to accommodate the wants of those who are unable to take the regular Course.

## DIPLOMAS.

A graduate in the Elementary Course receives a diploma, in which are named the branches studied, and by which he is constituted Bachelor of Elements; the diplomas of those graduating in the Scientific Course enumerate the distinctive branches of the Course, and constitute their holders Bachelors of Sciences.

---

Graduates in the Elementary Course can be examined upon any of the studies of the Scientific Course at any State examination, and can have these branches put upon their diplomas.

---

Regular graduates who have continued their studies for two years, and who have practiced their profession for two annual terms in the Public Schools of the State, and who have presented to the Faculty and Board of Examiners a certificate of good moral character and skill in the art of teaching, from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper Superintendent or Superintendents, may receive diplomas constituting them Master in the several studies embraced in the Course in which they graduate, and conferring upon them corresponding professional degrees, as follows:

*Master of the Elements.*

*Master of the Sciences.*

These diplomas are permanent certificates of the highest grade. They confer upon their holders the right to teach the branches named therein in the Public Schools of Pennsylvania without further examination.

---

Applications for diplomas must be presented to the Board of Examiners at their regular session.

---

## STATE APPROPRIATIONS.

By an Act of the Legislature, the following appropriations are made by the State to Normal Students and Normal Graduates:

1. Each student over seventeen years of age, who shall sign a paper declaring his intention to teach in the Common Schools of the State, shall receive Fifty Cents per week.

To secure this allowance, the student must attend the school at least twelve consecutive weeks, and recite daily in the Teacher's Training Class. The State appropriation is to be deducted from the tuition.

2. Each student who, upon graduating, shall sign an agreement to teach in the Common Schools of the State two full years, shall receive the sum of Fifty Dollars.

# EXPENSES.

All bills are due and must be paid when the student enters school.

Tuition in all branches included in the NORMAL department, one dollar a week, for the term. For less than an entire term, $1.25 per week. For one-half term or less, $1.50 per week.

Students taking a full Musical Course, the Course in Fine Arts, or in Stenography and Type-writing, and desiring in addition thereto to study some of the branches of the preceding Courses, will be admitted to one class in the Normal department for $6.00 per term; two classes for $11.00; to more than two classes, full rates.

Only persons who study in one of the departments of the school are entitled to these rebates.

Room rent, including furniture, bedding, towels, heat, light and washing of sheets, towels, etc., from sixty cents to seventy-five cents a week. Students furnish their own table napkins.

Room rent will be charged for the entire period for which the student has entered.

Board for the term will cost $1.90 per week. For less than a term, $2.00 per week.

Those of our Seniors who have sufficient preparation to justify them in devoting extra time to Model School work can earn at least $30, and may earn $50, during the year in addition to the $50 and $21 which the State grants to each of them.

Club boarding can be arranged for at rates to suit the most economical, as well as those who incline to take a more generous living.

# ⋖ MUSIC COURSE. ⋗

The aim of the Music Department is to furnish a school where the instruction and advantages shall be of a character that the wants of the Music Students, whether professional or amateur, can be fully satisfied.

We shall strive to go below the surface in our instruction, and give to our pupils thorough, solid progress.. Our object is to furnish a school where students may be prepared for any of the larger conservatories, for teaching, or for study in Europe.

Below is a description of our Course, designed to show the nature of our instruction.

All graduates in any Musical Course are required to attend Harmony and Theory Classes for at least one year.

## COURSE FOR PIANO-FORTE.

The grades advance from 1 through the half grades to 20.

### FIRST YEAR—GRADES 1 TO 8.

Daily Technical Studies. Etudes for developing the fingers, including Loeschhorn, op. 65, books 1 and 2; Czerny, op. 453, books 1 and 2; Kohler, op. 50, books 1 and 2; Duvernoy, op. 120, books 2 and 3; Burgmuller, op. 100, books 1 and 2.

### SECOND YEAR—GRADES 8 TO 13.

Daily Technical Studies. Czerny, Heller, Loeschhorn, Berens. Selections from standard composers.

### THIRD YEAR—GRADES 13 TO 17.

Heller, Berens, Krause. Kullak's Octave School. Loeschhorn, Czerny, Sonatas by Hadyn, Mozart, Beethoven, and selections from standard compositions of the best writers.

### FOURTH YEAR—GRADES 17 TO 20.

Kohler, Czerny; Clementi's Gradus ad Parnassum, Bach's well-tempered clavichord, Loeschhorn, Cramer, Moscheles, Chopin. Works from old masters and best modern composers. Concerted music. Concertos.

## VOCAL COURSE.

This Course covers from three to five years, according to wants and application of pupil.

In this branch of music study, the greatest attention will be paid to voice-building and correct breathing. Concerted music will be used, and care will be taken in the selection and study of songs.

## ORGAN COURSE.

The strict German school is used, beginning with Stainer's method. A smooth pedal nd manual touch will be taught, and instruction in use of stop and management of rgan will be given. Buck's Pedal Studies, Compositions by Merkel, Mayn, Batiste, Clark, ach and Mendelssohn, will be used. We will guarantee, if the student do his part, to raduate an efficient and finished organist.

## HARMONY AND THEORY.

Harmony, Counterpoint, and Composition Classes will be formed. A simplified method s used, making a very interesting and profitable course of study. Pains will be taken o make it thorough. One year's course is compulsory to graduates.

FREE ADVANTAGES.—Chorus classes will be free to all students in any course of the nstitution. The following classes will be free to all music students: History of music, lasses in analysis of compositions, short lectures or talks on musical subjects by the irector. These talks are calculated to arouse interest and to give pupils information n regard to their study,

CONCERTS.—As the students become capable they will be expected to take part in hese concerts and thus familiarize themselves with playing in public.

We aim to graduate finished players with true taste, a good technique and a horough understanding of what they have done.

## TUITION FOR MUSIC COURSE.

| | |
|---|---|
| For Fall term, 16 weeks, individual instruction, - - | $17.00 |
| For Winter term, 12 weeks, " " - - | 13.00 |
| For Spring term, 14 weeks, " " - - | $15.00 |
| For Less than one term, per lesson, individual instruction, - | $ .75 |

Instrumental classes consisting of from two to four persons, at reduced rates. Experience proves that instruction by classes is in many instances preferable to individual nstruction.

| | |
|---|---|
| Beginning Harmony Classes, | $4.00 per term. |
| Advanced Harmony Classes, | $5.00 per term. |

Rates for use of instrument in practicing two periods a day, for the term, **$3**. For ach additional period, **$1**.

It is the purpose of the Board of Trustees to erect a new Music Hall and have it in eadiness at the opening of the fall term of this year. Persons owning pianos can then ave their own instruments in their rooms, thus saving the expense for use of the school ianos.

## ◁ DEPARTMENT OF FINE ARTS, ETC. ▷

Instruction in Landscape and Flower Painting in Oil Colors, China Painting, and Crayon and Pencil Drawing, will be given at the following rates:

| | |

| Two lessons per week, per term, | 6 00 |

### TELEGRAPHY.

Students desiring instruction in telegraphy can be accommodated at reasonable rates at the school, where connection is maintained with the Railroad station and the Western Union Telegraph office of the town.

## ◁ GENERAL INFORMATION. ▷

### HISTORY.

This State Normal School was recognized by the State authorities on the 15th of February, 1887. The Normal School Association purchased from the Erie Conference of the M. E. church, during the preceding autumn the building, grounds and other property of the Carrier Seminary, located at Clarion, Pa., and immediately erected on the grounds two large dormitories for the accommodation of students, and on the 12th of April the school opened with 150 students in attendance.

### LOCATION.

Clarion is a quiet and pleasant village of about two thousand five hundred inhabitants, situated on the heights above the Clarion River. Cool and bracing breezes and pure water contribute to the general pleasantness and healthfulness of the place and make it a desirable summer resort.

The station on the Pittsburg and Western R. R. is on the opposite side of the street from the school grounds.

Four Churches, two Banks, an Opera House, a Masonic Hall, a fine Public School building and the county Buildings, comprise the principal public edifices in the town.

The grounds contain ten acres, on an elevation overlooking the village, and are pleasantly graded in lawns. All the buildings are supplied with water from an artesian well drilled to the "mountain sand" at a depth of almost three hundred feet below the surface, where an abundant supply of PURE water gushes from the rock, as the following analysis in 10,000 parts will prove:

| | |
|---|---|
| Chloride of sodium | .0339 |
| Sulphate of sodium | .0209 |
| Carbonate of sodium | .0037 |
| Carbonate of calcium | .0813 |
| Carbonate of magnesium | .0230 |
| Silicli acid | .0055 |
| Alumna | .0001 |
| Nitric acids | none |
| Nitrous acid | none |
| Albumnoid ammonia | slight traces |
| Total amount organic matter | .0005 |
| Total solids | .1689 |

## THE BUILDINGS.

The Seminary Hall contains the Chapel, Auditorium, Principal's Office, Recitation rooms, Manual Training room, Library and Gymnasium. Two commodious dormitories, one for the ladies and the other for the gentlemen, stand within a few yards of Seminary Hall. The dormitories are heated with steam, lighted with gas, and have hot and cold water and bath rooms on every floor. All the rooms in the dormitories are carpeted and furnished with clothes-press, bed, table, chairs and everything requisite for comfortable living.

The teachers and boarding pupils take their meals in the dining room in the ladies' dormitory.

# ◁ SPECIAL ADVANTAGES. ▷

## LIBRARY.

A large room in Seminary Hall has been set apart for a library and study room. Here the classes will be encouraged to investigate the subjects of study, rather than to memorize the subject matter in their text books. The shelves are filled with books of reference by the best authors, as well as standard works on biography, history, science, fiction, and every phase of literature. The number, already quite large, is increased from time to time by appropriations from the Board.

The reading tables are supplied with the leading magazines of the country, together with city daily papers and the local county newspapers, to which students have free access under proper regulations. The library will be open daily from 9 o'clock, a. m. until 12 m., and from 1:30 to 4:30, p. m.

## LABORATORY.

Here will be found a complete outfit for illustrating by actual experiment the truths of Natural Science. Students will be encouraged to familiarize themselves with the workings of the various pieces of apparatus, and will be expected to perform, under the supervision of the teacher, the experiments that may arise in the course of class-room work.

## GYMNASIUM.

A room has been fitted up and equipped with special reference to the physical culture of the students. This is open daily at such time as will not conflict with school exercises and study hours, and its use is under regulations enacted by the Faculty.

## STATE WEATHER STATION.

The State authorities have located here a thoroughly equipped station of the Weather Service, at which daily observations are taken, and the predictions, forwarded from the Chief Signal Office, displayed. The students are enlisted in this work and are thus given a thorough training in practical Meteorology.

## LITERARY SOCIETIES.

Several literary societies and debating clubs are maintained and students are advised to join them for the training they may receive in parliamentary practice and the opportunities afforded for frequent exercise in composition, oratory and debate.

## ADVICE TO NEW STUDENTS.

1. Call at the Principal's office at once on your arrival.

2. Enter all your classes the first day, and make yourself thoroughly at home. Introduce yourself to your teachers, and trust in them as your friends. They will advise, help and encourage you. Cheerfulness on your part will soon win you many friends.

3. Do not take many studies. Many undertake more than they can accomplish, overtax themselves, and so become discouraged and sick.

4. You can save time, money, your energies, avoid worry and mishaps by seeking the advice of your teachers and availing yourself of the same.

5. Choose your own studies, but do not drop a class without consulting both the Principal and the Teacher of the class in question.

6. On entering school, make up your mind what you wish to accomplish during the term, then pursue your object steadily, determinedly. Let nothing divert you from your purpose. Such a habit once formed will go far to bring you success in life.

7. When it is possible, make your arrangements with a view of taking one of the prescribed courses of the institution, and graduating in the same. Students often waste much energy and lose the most precious years of their lives by attending school in an aimless perfunctory way, without a definite aim before them. It has been proven in innumerable cases that even where the money to defray the expenses of a course has been borrowed, it will repay itself many times over in the increased value of the graduate to his employers, whatever his station in life.

Man is a moral and religious, as well as an intellectual being. A true education requires the harmonious development of all his powers. The religious nature is the perfection of his being, and should not be neglected in a system of education. We labor therefore, to give it culture ; to develop its triune elements—Faith, Love and Obedience. Among the religious privileges of the school are regularly conducted prayer meetings, Bible readings and the morning devotional exercises conducted in the Chapel The last, students are expected to attend, unless excused by the Principal.

All connected with the institution will cheerfully help you if in their power. It is easy to help those who try to help themselves.

The teachers of this institution are selected with reference to the special fitness of each for the work assigned, and much dependence will be placed on the interest which can be aroused in the classes, for good order, diligent study, and for thorough work.

# ⋖ CONDITIONS OF ADMISSION. ⋗

Students can enter the Preparatory Department of the Normal Course at any time without examination, and will be admitted to any class for which they are found to be qualified.

A prompt attendance at the opening of the session is very desirable, both for the progress of the pupil and for the proper organization of the school.

The date of the opening of the session means the day on which the organization of classes is effected, and recitations actually begin. Students should therefore contrive to be present and have all arrangements completed on the day preceding. It is very essential, especially in branches where the treatment of the subject is continuous, that students be present at the first recitation.

On arriving at the institution, each student should enquire for the Principal's office at once, and procure a Ticket of Membership, which will entitle him to the privileges of the school. This ticket will be his receipt for the expenses of the term, and will contain coupons, which when inscribed with his name and the name of his several classes, will be his passport to those classes.

Students desiring rooms in the dormitories should apply sufficiently in advance of the term during which they wish the same. Write to, or call upon,

R. G. YINGLING,

CLARION, PA.

The following Programs have been prepared in order to aid the student in making his individual program before leaving home. He will thus be ready to begin work promptly on the first day of school instead of losing precious time in waiting to classify himself after his arrival at School :
